

Hotline Question 1/19/16

I want a nice landscape for our home in Vista, but I don't want it to require too much water. Can you recommend a good landscape designer and contractor?

- The Master Gardener Program does not recommend individuals or businesses that perform commercial work.

- You can find the names of some local landscape designers and contractors from professional organizations (Association of Professional Landscape Designers (www.apldca.org) and California Landscape Contractors Association (www.clca.org) and by checking online and in the telephone yellow pages. Referrals may be obtained from some nurseries and landscape supply companies.

- Our office has free pamphlets in English and Spanish on “How to hire a landscape contractor” (Obtain hard copy via UCCE San Diego County Office or electronic file via UCCE San Diego County website http://ucanr.edu/sites/socalIPM/Healthy_Garden-Healthy_Home/).

- MG Earth Friendly Gardens Committee (speaker and earth friendly garden certification)
