

San Diego Master Gardener

Class of 2023

Session # 5

Introduction to Horticulture & Taxonomy

02/14/2023

Objectives

1. After this lesson, the trainee will know:
 - 1.1. Principal characteristics of green plants, plant structure, and common horticultural terminology.
 - 1.2. The general vegetative and reproductive growth process of plants and factors that influence them.
 - 1.3. Classic applications of fundamental horticultural knowledge.
2. After this lesson, the trainee will be able to:
 - 2.1. Be attentive to the scientific and common names of plants
 - 2.2. Identify the components of a plant
 - 2.3. Know how plants "make a living"
3. How to access more information:
 - 3.1. California Master Gardener Handbook, Second Edition, 2015, pp. 10-36.
 - 3.2. Supplementary Materials: [Photosynthesis: Fun in the Sun](#)
